- Mole removal

MODULE 003 - SKIN FUNDAMENTALS

- Anatomy and physiology of face
- Skin structure
- Skin aging
- Classification of skin
- Skin analysis
- How to do skin consultations

MODULE 004 - MECHANICAL EXFOLIATION

- MDA types
- a. Suction by powder crystals
- b. Diamond tip
- Hydra jet and Hydra facial & Oxy Hydra jet Peel
- Theory of exfoliation
- Exfoliation by peels

CURRICULUM OVERVIEW

SECTION 01 - CLINICAL COSMETOLOGY

MODULE 005 - PRODUCT KNOWLEDGE

- Skin routine definition
- Important molecules in skin care products
- Product selection for skin conditions and type
- Sun screen and its usage

MODULE 007 - USE OF BASIC MACHINES

- Derma scope and skin analysis
- Galvanic and Ultrasonic
- High Frequency

MODULE 009 - ACNE & RELATED TREATMENTS

- Fundamentals of acne
- Types of acne: papule, pustules
- Acne treatments

MODULE 006 - CHEMICAL PEELS

- Fundamentals of peels
- Classification of peels (superficial, medium and deep peeling)
- Application of peels
 - a. Preparation
 - b. Application
 - c. Post application care

MODULE 008 - PIGMENTATION & WHITENING

- Basics of pigmentation
- Types of pigmentation
- Freckles
- Treatments for pigmentation
- Whitening treatments
- Dermaplaning

CURRICULUM OVERVIEW

SECTION 02 - ADVANCED AESTHETICS & LASERS

MODULE 001 - BASIC HYGIENE

- Professional ethics
- Personal and clinic hygiene
- Sterilization and sanitation
- Client handling and people skills
- Bacteriology

MODULE 002 - LASER FUNDAMENTALS

- Core Knowledge of electromagnetic spectrum; photons; LASER and IPL
- The difference between LASER and IPL light therapy, and methods of applications for hair removal and skin rejuvenation treatments
- Recap of the anatomy and physiology of integumentary, endocrine, circulatory and lymphatic system in relation to light
- therapy treatments

MODULE 003 - LASER BASED SKIN REJUVENATION

- Skin routine definition
- Important molecules in skin care products
- Product selection for skin conditions and type
- Sun screen and its usage

MODULE 004 - LASER BASED PERMANENT HAIR REMOVAL

- PL and LASER based permanent hair removal for all areas of the body
- Treatment protocol for hair removal
- Precautions and considerations

CURRICULUM OVERVIEW

SECTION 02 - ADVANCED AESTHETICS & LASERS

MODULE 005 - OTHER ADVANCED TREATMENTS

- Mesotherapy for skin
- Platelet Rich Plasma (PRP) for skin
- Derma rollers for skin treatments
- Radio frequency and MRF
- Ultrasonic fat removal
- LED light therapy
- Botox and Fillers fundamentals

MODULE 006 - LASER TREATMENT PREPARATION

- preparation of the therapist and client, working area
- Full consultation,
- Tissue analysis & Fitzpatrick scale
- Contraindications
- Aftercare advice
- Clinical outcome
- Clinical side effects
- Full treatment protocol

MODULE 007 - TATTOO REMOVAL

- Classification of tattoos
- LASER selection for tattoo removal
- Treatment protocol for tattoo removal

CURRICULUM OVERVIEW

SECTION 03 - MEDICAL TRICHOLOGY

MODULE 001 - BASIC HYGIENE

- Professional ethics
- Personal and clinic hygiene
- Sterilization and sanitation
- Client handling and people skills
- Bacteriology

MODULE 002 - HAIR TREATMENT PROTOCOL

- Hair loss cause determination
- Minoxidil in hair loss
- Finasteride in hair loss
- How to develop overall treatment methodology
- Need to blood test in hair loss

MODULE 003 - HAIR FUNDAMENTALS

- Structure and function of hair follicle
- Hair life cycle
- Diseases of hair and scalp
- Causes of hair fall
- Alopecia and its types
- Food for hair
- Hair care for growth
- Impact of chemical treatments on hair quality

MODULE 004 - BASIC HAIR TREATMENTS

- Elasticity improvement
- Hydration therapy
- Treatment of dandruff
- Product knowledge for hair

CURRICULUM OVERVIEW

SECTION 03 - MEDICAL TRICHOLOGY

MODULE 005 - ANALYSIS OF HAIR

- Diagnosis of hair fall and thinning of hair
- Hair analysis with tracheoscopy
- Hair consultation and treatment finalization

MODULE 006- PRP AND MESOTHERAPY FOR HAIR RESTORATION

- Meso solutions and its impact
- Selection of right meso solution
- PRP overall approach
- PRP kit selection
- Suggested treatment protocol and PRP

MODULE 007 - CLASSIFICATION OF HAIR LOSS

- Classification of different hair loss patterns
- Androgenetic alopecia - male and female
- pattern hair loss
- Alopecia areata
- Traction alopecia
- Telogen effluvium

MODULE 008 - OTHER ADVANCED TREATMENTS

- Microneedling for hair restoration
- Low Level LASER therapy
- Theory of hair transplant

MEET OUR EXPERT FACULTY

Dr Aishwarya Gangawane

*BDS, MDS (Oral & Maxillofacial Surgery),
Post Graduate Diploma in Clinical Cosmetology, Trichology
and Advance Aesthetics (PGDCC)
Fellowship in Advance Facial Implants and Injectables
(Sweden University)*

**CLICK HERE TO EXPLORE
MORE DETAILS OF FACULTY**

WE MAKE EVERY EFFORT TO MAKE SURE THAT OUR STUDENTS ARE COMFORTABLE & THAT THEIR FIRST PRIORITY IS ATTENDING THE COURSE.

CENTRE DETAILS

- Centre is in the heart of the city with ample public transport
- Centre is open from 9 AM to 6 PM from Monday to Saturday
- We provide assistance to outstation candidates to find suitable accommodation for them

SUPPORT AFTER COURSE COMPLETION

- LIFETIME WhatsApp support for all doctors after the end of their course
- Support in procurement of machines and material in case you need them for your centre
- Marketing and lead generation support for your new Cosmetology Centre if needed
